- Huawei - AI CRA Training Program

PROFILE

BS Computer Engineering graduate (Cum Laude) from Bulacan State University with hands-on experience in building responsive and user-friendly web applications. Skilled in turning real-world problems into digital solutions, with a strong focus on clean code, functionality, and continuous growth as a full-stack developer.

TECHNICAL SKILLS

Front-End Development

- HTML5, CSS3, JavaScript, React

Back-End Development

- Node.js, MySQL, Firebase

Other Programming Languages

- Python, C/C++, Java

Version Control

- Git, GitHub

Tools

- Visual Studio Code, Visual Studio

PROJECTS

Point of Sale System (POS)

- Built an offline POS system for a furniture shop to reduce manual errors and speed up transactions using MySQL and Visual Studio.

Face Recognition

- Developed a face recognition application for attendance tracking to automate check-ins and improve security using Firebase for secure data storage.

Calculator

- Built a simple calculator app to perform basic arithmetic operations efficiently using HTML, CSS, and JavaScript .
